Course Outline/Topics to be Covered

Six week course to include basic training in the three most common processes to obtain an entry level job in the welding field. The focus of the training is to enable the student to understand basic theory and practical welding practices in the SMAW, GMAW, and FCAW processes. A basic overview on the GTAW or TIG processes is also touched on. ASME Section IX or AWS D1.1 Structural Certification for the processes performed after testing. These processes include SMAW, GMAW, FCAW. An introduction to pipe welding, as well as blueprint reading and nondestructive examination, are also included in the training.
